

HYDRAULIC NETS/ POTS HAULER Ø500

This hydraulic hauler is built in cast marine grade aluminium and stainless steel, it has a hydraulic distributor with pressure relief valve. Its stainless steel foot is placed on the deck and also fixed to the bulkhead. The hauler rotates on its foot and can be blocked in several positions.

USE AS NETS HAULER :

This hydraulic nets hauler handles all types of seine nets, trammel nets, etc. aimed at deep sea.

It has an aluminium drum in V shape with grooves, Ø500mm, width 300mm. It pulls and holds the nets efficiently.

USE AS POTS HAULER :

Sheaves Ø460mm hauls up warps Ø8mm to 16mm. It includes a knife block ejector and a plastic ruler (pressing on the warp). The open block pulley is fixed onto the guiding tube and the bottom runner maintains perfectly the warp inside the pulley.
