

## DYNEEMA BRAID

For deep sea trolling, we suggest to equip our reels of Dyneema® 16 braids.

High resistance and low stretch, this braid floats. It is recovered with a substance making it resistant to UV.

### Technical characteristics

Sold in drum of 1000m, choice of 2 diameters:

Ø 1.1mm, ref DYN1.1 = holds 180 kg, weight: 1 kg.

Ø 1.5mm, ref DYN1.5 = holds 350 kg, weight: 1.8 kg.

## RUST PROTECTION GREASE TAPE

The best option to protect your materials from rust. It can be placed on hydraulic motors and distributors, connectors and flexibles.

The grease tape must be applied on cleaned and dried surfaces.

### Technical characteristics

Made with non-woven fibers fully impregnated and coated with anti-corrosion grease (with neutral petrolatum based compounds, inert siliceous fillers, etc.).

Service temperature: -45°C to +60°C.

Sold in 10m roll with 2 width options: 50 or 100mm.

\* We reserve the rights to modify all components (shapes, sizes, etc) and product descriptions listed in our product sheets without prior notice.
