

HYDRAULIC LONGLINE HAULER

This hydraulic longline hauler hauls all types of longlines (trolling and deep sea), Ø1mm à Ø12mm.

The hauler is built in stainless steel and polyester. It has a hydraulic distributor with a pressure relief valve.

The longline hauling is done by a system of auto-centred. There is no line distortion or line twisting and the longline sets itself in the longline box.

Photos non binding

OPTION

➤ Davit arm for pots hauling (ref 416610) :
The longline hauler becomes a pots and lines hauler by replacing the retractable line guide by its stainless steel davit arm equipped with an open pulley to guide the warp.

Exists in PORT or STARBOARD model
