

ONBOARD HIGH PRESSURE CLEANING MACHINE

The high pressure pump is powered by its integrated hydraulic motor. This makes it a compact, light and resistant unit.

HIGH PRESSURE CLEANING

The installation is simple. The hydraulic motor is connected to the existing circuit and the high pressure pump uses filtered salt water (filter provided). It has to have a three ways tap to rinse with tap/ mineral water.

HIGH PRESSURE ASPIRATION PUMP

The group can be changed into an high pressure aspiration pump used for removing water from your boat deck. Just add the aspiration tube kit with cone venturi ending (ref: 850610) and the optional aspiration pistol (ref : 850601).

OPTIONS

- Stainless steel flat jet pistol (ref : 850600)
- Circular jet (ref : 850604)
- High pressure flexible, length 10m (ref : 850603)
